

Introducing: Tristone UK

About Us

Established in 2001, Tristone UK Limited is the sole distributor of Tristone Solid Surface sheets, sinks and adhesives in the UK and Ireland. We offer other great products, such as Fortis which are pre-finished worktops. They are available in various sizes for easy installation. We firmly believe that we offer the best quality products at competitive prices.

We aim to work closely with clients, offering full support through the supply of samples, literature, technical assistance, customer care and project support. As well as offering practical advice to fulfill every requirement for the solid surface market.

Based in Stockton-On-Tees, we have a wealth of experience, and have built up trust within the industry due to our commitment to offering the best and personal service to all our customers.

Our Product Portfolio

Hygienic

Tristone's non-porous acrylic surface allows for seamless joins. Seamless joins mean it can fend off mildew, bacteria and other harmful germs and is stain resistant.

Practical

Tristone is the bespoke choice of the practical minded individual, providing a surface that is both durable and easy to maintain. It comes in a variety of colours at a competitive price whilst still offering the same "wow factor" that other high quality surfaces such as granite and solid stone products offer. It also offers more practicality when it comes to maintenance and is much easier to repair.
